

Brian Dunn

Chief Information Officer

bdunn@lewisrice.com

St. Louis, MO / (314) 335-1194

Brian Dunn is a strategic technology leader who drives innovation and security across enterprise systems, with deep experience in cybersecurity, infrastructure, and digital transformation.

Brian serves as Chief Information Officer at Lewis Rice. He manages a range of executive-level business technologies, from initial concept and execution through post-project assessment. He focuses on delivering innovative strategies in cybersecurity, infrastructure, software/system development, data/analytics, mobility, and cloud.

Brian has held leadership roles across professional services, including the legal, accounting, and financial industries. Most recently, before joining Lewis Rice, he served as Manager of Global Cybersecurity within the Information Security Office at Enterprise Mobility.
